## THE BETSY

BETWEEN THE ROWS of beach bars touting fishbowl sized cocktails, a couple of brilliantly named restaurants (Wings & Rings or Tequila Chicas, anyone?), and the iconic Art Deco architecture of South Beach's Ocean Drive sits the Betsy Hotel, a charming plantation-style boutique property. With its laid-back pace and focus on indulgence (wellness garden with a full range of spa treatments, Laurent Tourondel's BLT Steak, courtyard pool, private beach area, and the intimate invitation-only B Bar hidden underneath the lobby), we were forced to check our neurotic New York selves at the door and go with the flow.
